

# SAPŅU FABRIKA

SPACE FOR CREATIVE MINDS

In the year 2001 Dream Factory (Sapņu fabrika) began its work. The historical rooms of the former glass factory, which was built in 1911, accommodates architectural and design offices, a TV studio and a concert hall. Front and interior of the building preserve industrial elements, which in combination with modern technologies impart comfort, atmosphere and a special artistic shade to the area.

The concert hall, which is 1200 square meters big, is a universal, technically fit space, which can be reequipped for presentations, corporate parties, exhibitions, theatrical performances and concerts. VIP zone, 2 bars, backstage, organizers' office and parking at your disposal.

Dream factory has its own style and charm, which makes it one of the most preferable venues for producers in Riga.
